FOREWORD

The National Curriculum Framework (NCF)–2005 recommends bringing out work and education into the domain of the curricular, infusing it in all areas of learning while giving it an identity of its own at relevant stages. It explains that work transforms knowledge into experience and generates important personal and social values, such as self-reliance, creativity and cooperation. Through work, one learns to find one's place in the society. It is an educational activity with an inherent potential for inclusion. Therefore, an experience of involvement in productive work in an educational set up will make one appreciate the worth of social life and what is valued and appreciated in the society. Work involves interaction with material or other people (mostly both), thus, creating a deeper comprehension and increased practical knowledge of natural substances and social relationships.

Through work and education, school knowledge can be easily linked to learners' life outside the school. This also makes a departure from the legacy of bookish learning and bridges the gap between the school, home, community and workplace. The NCF–2005 also emphasises Vocational Education and Training (VET) for all those children, who wish to acquire additional skills and/or seek livelihood through vocational education after either discontinuing or completing their school education. VET is expected to provide a 'preferred and dignified' choice rather than a terminal or 'last resort' option.

As a follow-up of this, the NCERT has attempted to infuse work across subject areas and also contributed towards the development of the National Skill Qualification Framework (NSQF) for the country, which was notified on 27 December 2013. It is a quality assurance framework that organises all qualifications, according to the levels of knowledge, skills and attitude. These levels, graded from one to ten, are defined in terms of learning outcomes, which the learner must possess regardless of whether they are obtained through formal, non-formal or informal learning. The NSQF sets common principles

and guidelines for a nationally recognised qualification system, covering schools, vocational education and training institutions, technical education institutions, colleges and universities.

It is under this backdrop that Pandit Sunderlal Sharma Central Institute of Vocational Education (PSSCIVE), Bhopal, a constituent of the NCERT has developed learning outcome based modular curricula for vocational subjects from Classes IX to XII. This has been developed under the Centrally Sponsored Scheme of Vocationalisation of Secondary and Higher Secondary Education of the Ministry of Education, erstwhile Ministry of Human Resource Development. qaza

This textbook has been developed as per the learning outcome based curriculum, keeping in view the National Occupation Standards (NOSs) for the job role and to promote experiential learning related to the vocation. This will enable the students to acquire necessary skills, knowledge and attitude.

I acknowledge the contributions of the book development team, reviewers, and all institutions and organisations for supporting towards the development of this textbook.

The NCERT welcomes suggestions from students, teachers and parents, which would help us to further improve the quality of the material in subsequent editions.

ABOUT THE TEXTBOOK

The IT-ITeS sector is growing at a fast pace and is a very important industry in India and abroad. In the growing business opportunities in various domains around the globe, there is a huge transfer of information from one place to another. Large amount of data is churned thus creating a need for proper management of the data that are collected. The companies also have to concentrate on their core activities and resort to outsourcing the data entry process. The rapid growth in the IT industry along with the entry of many small and large outsourcing companies in this area, has led to a huge demand for trained personnel for various job roles, such as Data Entry Operator.

Domestic Data Entry Operators in the IT-ITeS Industry are also known as Data Entry Operators. These individuals are responsible for providing daily work reports and work on hourly basis. They are also responsible for electronic entry of data from the client site on to the office site or vice-versa. Individual tasks vary depending on the size and structure of the organisation. This job requires the individual to have thorough knowledge of various technology trends and processes as well as have updated knowledge about database management systems and IT initiatives. The individual should know fast and accurate typing or data encoding. This job involves working on a computer, and appropriate software to enter accurate data regarding different issues like retrieving data from a computer or to a computer.

The textbook for the job role of “Domestic Data Entry Operator” has been developed to impart knowledge and skills through hands-on learning experience, which forms a part of the experiential learning. Experiential learning focusses on the learning process for the individual. Therefore, the learning activities are student-centered rather than teacher-centered.

The textbook has been developed with the contribution of the expertise from the subject and industry experts and academicians for making it a useful and inspiring teaching-learning resource material

for the vocational students. Open source software LibreOffice version 6.4 under Ubuntu Linux is used to demonstrate the process in this textbook. The presentation of the screenshots may look different in other versions of LibreOffice under Windows platform, but the functionality, features and commands will remain the same in any version under any platform. Adequate care has been taken to align the content of the textbook with the National Occupational Standards (NOSs) for the job role so that the students acquire necessary knowledge and skills as per the performance criteria mentioned in the respective NOSs of the Qualification Pack (QP). The textbook has been reviewed by experts so as to make sure that the content is not only aligned with the NOSs, but is also of high quality. The NOSs for the job role of Domestic Data Entry Operator covered through this textbook are as follows:

1. SSC/N3022 – Undertaking data entry services
2. SSC/N9001 – Managing work to meet requirements
3. SSC/N9003 – Maintaining a healthy, safe and secure working environment

Unit 1 of the textbook covers the advanced features of word processing using LibreOffice Writer. It covers applying styles to the document, where you will learn to format a document using styles.

Unit 2 of the textbook covers the advanced features of spreadsheet using LibreOffice Calc. It includes – analysing data to extract useful information for making effective decisions.

Unit 3 of the textbook covers the Database Management System (DBMS) using LibreOffice Base. It covers the general concepts of DBMS, different database model with the focus on relational database. Unit 4 of the textbook deals with the concept of working environment in IT industry. It focuses on safe working practices at workplace. It explains about health related problem caused by the wrong practices and its solution. It also gives the knowledge about required resources in workplace for smooth working.

ACKNOWLEDGEMENTS

The National Council of Educational Research and Training (NCERT) expresses its gratitude to all members of the Project Approval Board (PAB) and officials of the Ministry of Human Resource Development (MHRD), Government of India, for their cooperation in the development of this textbook. The Council also extends gratitude to all the contributors for sharing expertise and valuable time by positively responding to the request for the development of this textbook.

The Council acknowledges the contribution of Prakash Khanale, *Head*, Department of Computer Science, DSM College Parbhani, for carefully evaluating and giving suggestions for the improvement of this textbook.

The Council would also like to thank Rajesh Khambayat, *Joint Director*, PSS Central Institute of Vocational Education (PSSCIVE), Bhopal, for providing support and guidance in the development of this textbook.

The Council is grateful to Saroj Yadav, *Professor and Dean (A)*, NCERT, and Ranjana Arora, *Professor and Head*, Department of Curriculum Studies, for their sincere efforts in coordinating the review workshops for the finalisation of this book. The Council acknowledges the copy editing and valuable contribution of Shilpa Mohan, *Assistant Editor* (Contractual) in shaping this book. The efforts of *DTP Operator* Pawan Kumar Barriar, Haridarshan Lodi and Rajshree Saini, *DTP Operators* (Contractual), Publication Division, NCERT, for flawless layout design are also acknowledged.

CONTENTS

<i>Foreword</i>	<i>iii</i>
<i>About the Textbook</i>	<i>v</i>
Unit 1: Digital Documentation (Advanced) using LibreOffice Writer	1
Chapter 1. Introduction to Styles	3
Chapter 2. Working with Images	22
Chapter 3. Advanced Features of Writer	47
Unit 2: Electronic Spreadsheet (Advanced) using LibreOffice Calc	84
Chapter 4. Analyse Data using Scenarios and Goal Seek	86
Chapter 5. Using Macros in Spreadsheet	104
Chapter 6. Linking Spreadsheet Data	116
Chapter 7. Share and Review a Spreadsheet	130
Unit 3: Database Management System using LibreOffice Base	142
Chapter 8. Introduction to Database Management System	144
Chapter 9. Starting with LibreOffice Base	157
Chapter 10. Working with Multiple Tables	173
Chapter 11. Queries in Base	186
Chapter 12. Forms and Reports	199
Unit 4: Maintain Healthy, Safe and Secure Working Environment	222
Chapter 13. Health, Safety and Security at Workplace	223
Chapter 14. Workplace Quality Measures	235
Chapter 15. Prevent Accidents and Emergencies	247
